Magnetic Accessories

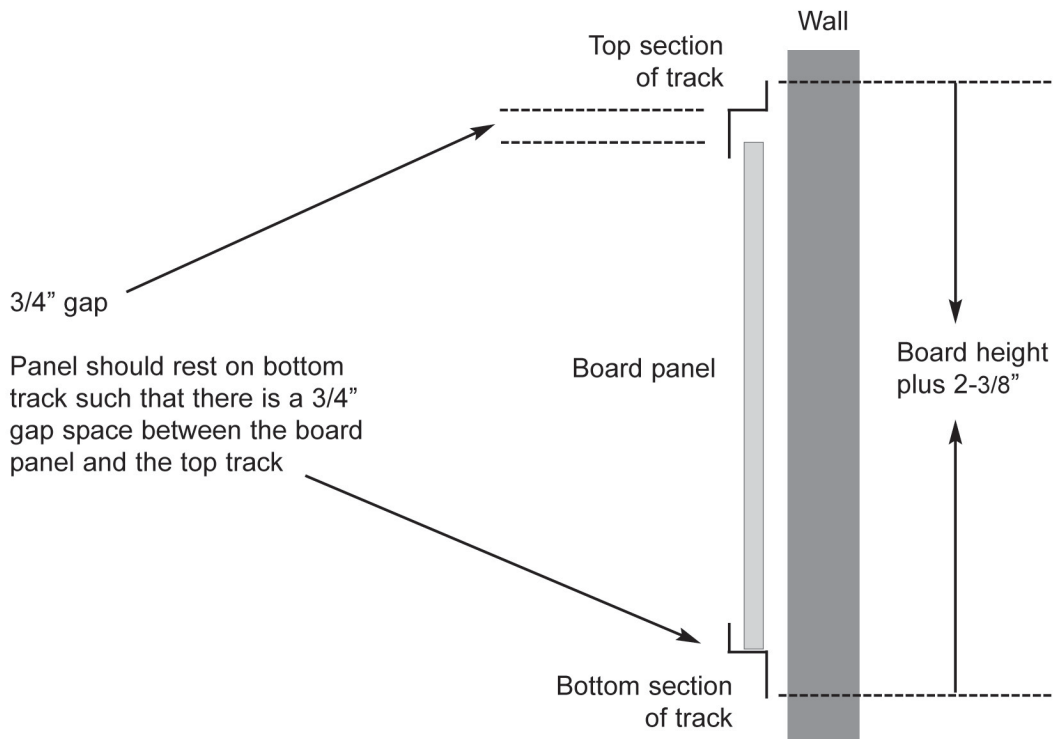

Lift-Out Panel Mounting

Instructions:

Mount tracks to wall as shown below. Drill holes in tracks at spacing to fit your wall construction and mount to wall by screwing into studs or using "toggler" type or "moly" type drywall mounts.

Note that the $\frac{3}{4}$ " spacing is necessary to enable panel lift-out PLUS the wide section must be out at the top and the narrow section out at the bottom as shown below. If you have any questions or concerns do not hesitate to call us.

Questions? Call 1-800-334-4245 for assistance.
