Sliding Track Roller Orientation

Orientation:

Enclosed you will find six rollers. These are what the panels will actually “slide” on once the unit is completed. You will need to position them as the diagram shows below.

Top Frame Piece

The rollers should be positioned so that the openings face each other. They slide onto the end of the top frame piece, at the ends, prior to the affixing of the panels.

Questions? Contact Customer Service at 1-800-334-4245.
